*This class will enhance any dancer who wants to dance more than once a week. It is designed to teach and strengthen technique, to establish good habits and the foundation for future progress, by perfecting their placement and executing center work with greater precision. Strength, repetition, and correction will make you a better Ballet dancer. This class is discounted half-price and is taken in addition to a Ballet Pointe class.

**Designed for the High School dancer with previous dance training. Focuses on the principals of dance technique. Classes progress quickly and regular attendance is required. Admittance into this program will need to be approved by Miss Kay.
